

Stop the Spread of Spotted Lanternfly by Using This Checklist

Photo: PA Dept. of Agriculture,
 Bugwood.org

If you've spent any time in a New York State Spotted Lanternfly quarantine area in DE, MD, NJ, PA, VA, and WV, it's important to check for egg masses, adults, and nymphs on your vehicle and, when applicable, the items listed on this page.

New York State Departments of Agriculture & Markets, and Environmental Conservation List of Spotted Lanternfly Harborage			
High Priority	Recreational and Camping Gear	Outdoor Items	Building Materials
motor homes	backpacks	barrels	bricks/cinder blocks

		garden tools	
		backhoes	
		signs and posts	
		children's playhouses	
		kiddie pools	
		sandboxes	
		playground equipment	
		bicycles and scooters	
		dog houses, rabbit sheds, chicken coops	
		farm tractors & equipment	

Note: Businesses/truckers/common carriers moving items from a quarantine area must complete a Spotted Lanternfly training and obtain a permit.

If you find Spotted Lanternfly in New York:

1. Take pictures of the insect, egg masses, or infestation and, if possible, include something for size, such as a coin or ruler.
2. If possible, collect the insect. Place in a bag and freeze, or in a jar with rubbing alcohol or hand sanitizer.
3. Note the location (street address and zip code, intersecting roads, landmarks, or GPS coordinates).
4. **Email pictures and location to spottedlanternfly@agriculture.ny.gov**
5. **OR fill out the form at: dec.ny.gov/animals/116595.html**, which includes specimen information.
6. For more information, visit these websites:
